

The screenshot shows the 'Joystick' settings window in X-Plane 11. On the left is a 3D model of the Thrustmaster T.Flight Hotas X joystick with numbered callouts 1 through 9. On the right is the configuration panel. The settings are as follows:

- 1: Stick Twist: Yaw
- 2: Throttle: Throttle
- 3: Hat Switch: Hat switch up
- 4: L1: Servos toggle
- 5: L3: Pitch trim up
- 6: 8: Igniter #1 contin-ignition on
- 7: SE: Engage starter #1
- 8: ST: Engage starter #2

The 'Hat Switch' section (item 3) is highlighted with a red box. The 'Done' button is at the bottom right.

Do you have these settings configured?
